Team Name: sdmay23-03

Team Members:

1) Aashish Komaragiri
2) Elijah Shelby
3) Grace Rasmussen
4) Khushveen Kaur Umra
5) Matthew Karmelich

Report Period: (Module 9) 29th October 2022 - 4th November 2022

Summary of Progress in this Period

1) Regular meetings were conducted by the team with the client and the advisor.
2) Completed Individual Ethics and Professional Responsibility Assignment.
3) Work with Henry to get the VPN connection when fixed.
4) Conducted a meeting with the professor to discuss how to proceed with the project, and to discuss if the selected tasks are sufficient for a senior design project.
5) Started discussing the final website for this class.

Pending Issues

1) Options page we are currently planning on working on may not be a very big undertaking, but we can always move on to other areas in the future.
2) Trouble getting the Linksys 00762 router and the VPN to work. Henry is still working on fixing this.
3) Specific pointers of the project are still not discussed that will help us to break down the project step-by-step (being delayed by the VPN issues).
4) Not everyone in the group has been able to access their remote machine, as it stops responding if multiple people try to access it.
5) Project tasks have not been discussed with the advisor, due to which it is not yet established if the tasks will be sufficient for a senior design project.

Plans for Upcoming Reporting Period

1) Conduct a meeting with the client and the advisor, to discuss more of the project plan and first steps.
2) Complete part 6 of the design document (Testing).
3) Discuss testing procedures with the client.
